Shafqat Sarwar

AI Automation Engineer | Agentic AI Systems | AI Employees for
SMEs | MCP · CrewAI · LangChain · FastAPI | Workflow Automation
Pakistan

Summary

My clients were losing 30–40% of team capacity to tasks an AI Employee now handles in seconds. I build the systems that fix that. 14+ years in software development. Now 100% focused on Agentic AI, multi-agent systems, and workflow automation for SMEs — building AI Employees that work 24/7, never call in sick, and scale without adding headcount. I don't just implement AI tools. I build practical business solutions that deliver measurable results — faster response times, fewer manual processes, and operations that run themselves. What I Build: Agentic AI Systems & Multi-Agent Workflows AI Employees for Customer Support, Lead Management & Operations CRM & WhatsApp Automation Business Process & Workflow Automation Model Context Protocol (MCP) Integrations SaaS Platforms & API Development Live Projects: TheMindGauge — AI Employee Platform deploying AI agents across customer support, lead management, and operational workflows for SMEs LinkedIn Agent — Automates LinkedIn profile management, posting, headline updates, and connection workflows AI Assistant 24/7 — Always-on AI business assistant automating customer interactions and routine operations OpenClaw AI Agent Platform — Autonomous AI coding agents, MCP servers, and multi-agent workflows for software and business automation Secure Alerts System — Privacy-first communication and alert management for secure client engagement JoinQuran — Digital Quran learning platform connecting students and teachers worldwide Tech Stack: Python · MCP · CrewAI · LangChain · FastAPI · OpenAI APIs · REST APIs · PostgreSQL · Vercel AI SDK · WhatsApp Business API · CRM Integrations Results I deliver for clients: ✓ 60–70% reduction in manual response time ✓ Workflows automated across 10+ SME clients in Pakistan & UK ✓ 6 live AI products built and deployed I work with founders, SME owners, and operations teams who want AI working for their business — not just sitting in a demo. Open to consulting engagements, AI automation projects, SaaS development, and

strategic partnerships. Ready to explore what an AI Employee could do for your business? → excellencelinks@hotmail.com | themindgauge.com

Experience

The Mind Gauge

Founder & Executive Director

March 2012 - Present (14 years 5 months)

Leading the development of AI-powered automation solutions that help businesses eliminate repetitive manual work, improve customer engagement, and scale operations without adding headcount.

Key Responsibilities & Achievements:

Design and develop Agentic AI solutions using multi-agent architectures, AI agents, and autonomous workflows — deployed for 10+ SME clients across Pakistan and UK.

Build AI Employees and intelligent automation systems for customer support, lead management, CRM operations, communication, and business process automation.

Develop and integrate AI solutions across WhatsApp, email, CRM platforms, and APIs — typically reducing client response time by 60–70%.

Architect and deploy scalable SaaS platforms, including TheMindGauge AI Employee Platform, automating hundreds of client workflows monthly.

Build workflow automation solutions using Python, MCP, CrewAI, LangChain, FastAPI, OpenAI APIs, and custom integrations.

Lead end-to-end product development across 6 live AI products, including solution architecture, development, testing, deployment, optimization, and ongoing improvement.

Projects:

TheMindGauge — AI Employee Platform

LinkedIn Agent — Manage and automate your LinkedIn profile, posts, headlines and connections

AI Assistant 24/7 — AI-Powered Business Assistant

OpenClaw AI Agent Platform — Autonomous AI Coding & Workflow Automation Environment

Secure Alerts System — Privacy-First Communication Platform

JoinQuran — Digital Quran Learning Platform

Technologies:

Python • MCP • CrewAI • LangChain • OpenAI APIs • FastAPI • REST APIs
• WhatsApp Business API • SaaS Development • Workflow Automation • AI Agents • Multi-Agent Systems

Excellence Links

Founder & CEO

November 2010 - Present (15 years 9 months)

London Area, United Kingdom

Technology consulting and digital transformation company serving SMEs across Pakistan, UK, and beyond — delivering AI automation, SaaS platforms, and workflow systems that replace manual processes with scalable intelligent solutions.

- Consulted and delivered automation solutions for 15+ businesses
15+ projects,

across industries including education, retail, professional services, and real estate — spanning Pakistan and the UK over 15 years.

- Designed and deployed AI-powered workflow automation systems reducing client operational workload by an average of 50–60%, freeing teams to focus on high-value work.

- Built and launched 6+ custom SaaS platforms and web/mobile applications — from concept to live deployment — serving hundreds of users monthly.

- Integrated WhatsApp Business API, CRM platforms, payment gateways, and 10+ third-party APIs into client systems, eliminating

manual data entry and communication bottlenecks.

- Delivered end-to-end project ownership across 50+ software projects covering architecture, development, testing, deployment, and ongoing support.

- Helped clients reduce customer response time from hours to under 60 seconds using AI-powered communication and support automation.

Python · FastAPI · OpenAI APIs · MCP · REST APIs · JavaScript · PostgreSQL · WhatsApp Business API · SaaS Platforms · Workflow Automation Tools

OeM

1 year 1 month

Admin

October 2009 - October 2010 (1 year 1 month)

London Area, United Kingdom

Managed administrative operations, client communications, documentation, reporting, and internal workflow coordination to ensure smooth day-to-day business operations.

Administrative Assistant

October 2009 - October 2010 (1 year 1 month)

- Managed administrative operations, client communications, reporting, and workflow coordination.
