

Shafqat Sarwar

Agentic AI Developer ♦ AI Automation Engineer ♦ Founder, TheMindGauge

excellencelinks@hotmail.com · linkedin.com/in/shafqatsarwar · github.com/Shafqatsarwar · themindgauge.com · Pakistan

PROFESSIONAL SUMMARY

Agentic AI Developer and AI Automation Engineer with 14+ years of experience in software development — now 100% focused on building AI Employees, multi-agent systems, and workflow automation for SMEs. Founder of Excellence Links (est. 2010) and creator of TheMindGauge AI Employee Platform. Delivered 6 live AI products across 10+ SME clients in Pakistan and the UK, consistently reducing manual workload by 60–70% and cutting customer response times from hours to under 60 seconds. Hands-on experience with OpenAI Agents SDK vector stores, RAG pipelines, agent memory and session management, and streaming agent interfaces.

LIVE AI PROJECTS

- ♦ **TheMindGauge** — AI Employee Platform — autonomous agents for customer support, lead management, WhatsApp, email, LinkedIn and business operations 24/7 (themindgauge.com)
- ♦ **LinkedIn Agent** — Automates LinkedIn profile management, posting, headline updates, and connection workflows using agentic AI (themindgauge.com)
- ♦ **AI Assistant 24/7** — Always-on AI business assistant automating customer interactions, enquiries, and routine business operations (themindgauge.com)
- ♦ **OpenClaw AI Agent Platform** — Autonomous AI coding agents, MCP servers, and multi-agent workflows for software development and business automation (github.com/Shafqatsarwar)
- ♦ **Secure Alerts System** — Privacy-first platform for secure client alerts and end-to-end encrypted business messaging (alerts-joinquran.vercel.app)
- ♦ **JoinQuran** — Digital Quran learning platform with AI-powered chatbot using vector store knowledge base for student and teacher support (joinquran.vercel.app)

PROFESSIONAL EXPERIENCE

Executive Director & Founder · The Mind Gauge

March 2012 – Present (13+ years) | Pakistan

- ▶ Designed and deployed Agentic AI systems using multi-agent architectures for 10+ SME clients across Pakistan and UK — reducing manual response time by 60–70%.
- ▶ Built AI Employee systems for customer support, WhatsApp automation, CRM operations, and lead management — automating hundreds of client workflows monthly.
- ▶ Architected and launched TheMindGauge — a scalable SaaS AI Employee Platform with 6 live AI products currently in production.
- ▶ Implemented RAG pipelines using OpenAI Agents SDK vector stores to power AI chatbots with domain-specific knowledge bases.
- ▶ Built agent memory and session management systems ensuring context continuity across multi-turn conversations in production.
- ▶ Integrated AI solutions across WhatsApp Business API, Email, CRM platforms, and REST APIs — cutting average customer response time from hours to under 60 seconds.
- ▶ Led end-to-end product development: architecture, development, testing, deployment, performance monitoring, and continuous improvement.

Stack: Python · MCP · CrewAI · LangChain · OpenAI Agents SDK · FastAPI · PostgreSQL · WhatsApp Business API · TypeScript · Next.js · Docker

Director & Founder · Excellence Links

November 2010 – Present (15+ years) | London, UK (Remote)

- ▶ Consulted and delivered technology solutions for 15+ businesses across education, retail, professional services, and real estate — spanning Pakistan and the UK over 15 years.

- ▶ Designed and deployed AI-powered workflow automation systems reducing client operational workload by an average of 50–60%.
- ▶ Built and launched 6+ custom SaaS platforms and web/mobile applications from concept to live deployment, serving hundreds of users monthly.
- ▶ Integrated WhatsApp Business API, CRM platforms, payment gateways, and 10+ third-party APIs — eliminating manual data entry and communication bottlenecks.
- ▶ Delivered end-to-end ownership across 50+ software projects: architecture, development, testing, deployment, and ongoing support.
- ▶ Reduced client customer response time from hours to under 60 seconds using AI-powered communication and support automation.

Administrative Assistant · OeM

October 2009 – October 2010 (1 year) | Pakistan

- ▶ Managed administrative operations, client communications, documentation, reporting, and internal workflow coordination to ensure smooth day-to-day business operations.

CORE SKILLS

AI & Agents	Agentic AI Development · Multi-Agent Systems · AI Employees · Workflow Automation · Business Process Automation
Agent Frameworks	CrewAI · LangChain · OpenAI Agents SDK · MCP (Model Context Protocol) · Chainlit
RAG & Memory	RAG Pipelines · Vector Stores (OpenAI) · Agent Memory & Session Management · Knowledge Base Curation
APIs & Protocols	REST APIs · FastAPI · WhatsApp Business API · CRM Integrations · GitHub Actions
Development	Python · TypeScript · JavaScript · Node.js · React · Next.js · PostgreSQL · Docker
Business	SaaS Development · Solution Architecture · Client Consulting · Digital Transformation · API Integration

CERTIFICATIONS

- ✓ Agentic AI Fundamentals — Level 1 & Level 2
- ✓ Model Context Protocol (MCP) — Level 2
- ✓ Prompt & Context Engineering — Level 1 & Level 2
- ✓ Crash Course on Python

EDUCATION

MS — Network & System Administration — Virtual University of Pakistan | 2015–2017

MCS — IT & Social Sciences — Quaid-e-Azam University, Islamabad | 2009–2011

BA — Social Sciences — Bahauddin Zakariya University | 2004–2008
